

September 23rd, 2021

Dear member,

COVID-19 ANTIGEN RAPID TESTS

It is a pleasure to reach out to you. The ADTO team would like to provide you with a great opportunity that can keep your dental laboratory safe and to ensure your laboratory associates can feel a sense of relief every time they walk into their respected workplace.

The ADTO is working with the Ontario Government to make the Panbio™ COVID-19 Antigen Rapid Tests available for dental professionals free of charge. This means we get the privilege of protecting what we value most; the patients, the people, and the representation of a health care professional.

All product and shipping costs are covered by the Ontario Government, while a processing fee is covered by the ADTO. You can find in-depth information which will make it easier for you to understand on how to use them by visiting the [Blog](#) post on our website in this regard. We have worked hard with many other oral health partners to coordinate this offering. Please use the [link](#) to register your dental lab and receive up to 5 boxes of rapid test kits every 23 days. We are under the healthcare field of Dentistry, Specialty of “General Dentistry”. If you have any questions or are confused, please email us at info@adto.ca.

Our priority is your success. We can only be as successful as our group identity continues to maintain our professionalism as Dental Technologists.

Sincerely,

Karim Sahil, MDT, RDT
President
